

A Home of Your Own

A Program Provided by The Phoenix Residence, Inc. and Phoenix Service Corporation.

Are you looking for a new place to live or do you need help staying in your current home? Do you need assistance coordinating the supports you desire in a place you want to live?

The Phoenix Residence and Phoenix Service Corporation have been helping individuals with disabilities for over 35 years live in the community in the way they choose.

We can help you identify the assistance you need –staffing, medication management, meal services, assistance with creating a budget, community supports, and roommate compatibility assessment (if you choose to live with others). Phoenix will ultimately help you secure a living arrangement that will meet your current needs.

In addition to identifying supports, we can help you take advantage of programs and benefits available. Once your needs are established, we will continue to provide the on-going supports you need to sustain an independent life.

At the end of the day, *you* decide where you want to live and we will work with you to make that possible.
